

Plustek OpticSlim 550 Plus

An ultra slim and compact designed front desk scanner ...

OpticSlim 550 Plus is a sleek and compact scanning device that has been designed to fit user's scanning job convenience. It is light in weight and extremely portable. What's more, scanning speed only needs 1.5 second, and there's no warming time needed unlike other scanners. At the press of a button, users can select from amidst five different scanning modes to get the desired scanning result.

OpticSlim 550 Plus has no limitations as far as document thickness is concerned, it is ideal for scanning passports, ID cards, credit cards, driver licenses, medical insurance cards, bank notes, bank cheques, photographs or any kind of small document. It is ideal for SI (system integrators)

who is focus on custom authorities, government agents, reception desk, medical related, financial sectors or customer service front desk.

Bundled with highly productive document software, OpticSlim 550 Plus enables efficient document management with the best quality image output. All scanning processes such as saving and exporting scanned files to the designated destination can be performed automatically. This results in maximum work efficiency and huge savings in terms of time and resources. There is also possibility to bundled Passport / Cheque library to make the output data straight into the system, without any re-organize hassle.
