

## Plustek OpticSlim M12 Corporate

An Affordable Solution for Your Mobile Scanning Needs

**Are you tired of carrying all your documents?  
Is your briefcase overloaded with blueprints or legal  
papers?  
Plustek has the perfect solution for you...**

Plustek OpticSlim M12 Corporate, a portable scanner for scanning A4 / legal size document, turns your printed papers into Searchable PDF files in real time.

**• Designed by Professionals for Professionals**

Plustek Inc. has been searching for the perfect gadget to help you organize your businesses documents. The OpticSlim M12 Corporate is a mobile sheetfed color scanner, offering high-power scanning in a ultra-compact package. It is capable of scanning Legal-size documents and is power cord-free, using a USB interface for power and communication with the computer. The OpticSlim M12 Corporate is the perfect companion for the mobile executive, fitting neatly on a desktop or easily in a briefcase, or alongside a laptop.

**• Big Things But Come in Small Packages**

Weighing less than 12-ounces, the OpticSlim M12 Corporate fits easily alongside a mobile computer and breathes new life into a laptop's on-the-road usability. With powerful bundled software, the OpticSlim M12 Corporate is always ready to scan and organize users' documents, photos, articles, brochures and business cards. Whether in the office or on the road, the OpticSlim M12 Corporate will lighten both the work and physical load. The OpticSlim M12 Corporate offers a true 600-dpi optical resolution with advanced 48-bit color depth. At this resolution even the smallest business card fonts or photo details are scanned with brilliant accuracy.

# Plustek OpticSlim M12 Corporate

An Affordable Solution for Your Mobile Scanning Needs

## Features of OCR Program

- Batch OCR: executes the recognition on all prescanned images
- No limit for documents scanning
- Quickly convert your PDF files into text
- Perform the original layout perfectly
- Easily create PDF, HTML, Word and Excel files
- Simply share the information in the appropriate digital format

## Powerful Business Card Recognition Function

BCR Technology provides photo & document database management which can quickly and easily convert the vital contact information on business cards into a convenient, searchable, digital database that can be easily synchronized between PC, NoteBook, and PDA.

### ★ What is Searchable PDF? ★

*Searchable PDF indicates that the scanned document (result in PDF format) has been processed via optical character recognition (OCR) and you can search the entire file for occurrences of a word or phrase.*

- By using own desktop searching engine, you can instantly search documents for keywords or phrases.
- Searchable PDF provides more security, reliable and easy transit / exchange of the documents.
- It will preserve the look and integrity of the original documents, including the fonts, graphics, images and the layout.
- Files can be easily viewed, printed or shared with anyone, within any operating system and application.
